Professional Summary

Full Stack Software Engineer with 4+ years of shipping production features in modern web applications. Backend-first with Node.js, TypeScript, NestJS, and REST APIs; comfortable across React and Next.js on the frontend. Experienced with PostgreSQL and MongoDB, authentication, third-party integrations, and end-to-end ownership from schema to deployed UI.

Technical Skills

- **Languages:** TypeScript, JavaScript, Ruby
- **Frontend:** React.js, Next.js, Vue.js, HTML, CSS
- **Backend:** Node.js, NestJS, Express, Hapi.js, REST APIs
- **Databases:** PostgreSQL, MongoDB, MySQL, Prisma, TypeORM, Sequelize
- **Auth & integrations:** JWT, OAuth, Firebase, Webhooks (Veriff), Pusher
- **Tooling:** Git, GitHub, Docker, Cursor, Jira

Professional Experience

Aslase (Lahore)

Senior Software Engineer | Dec 2025 – Present

- Own end-to-end full-stack features in production — NestJS/Node.js APIs, PostgreSQL (Prisma), and Vue UI — from design through deployment and maintenance.
- Ship backend infrastructure and REST API enhancements used by live product workflows; improve reliability through troubleshooting and performance tuning.
- Collaborate across frontend and backend to keep system architecture consistent and deliverables production-ready.

Key Technologies: NestJS, Node.js, TypeScript, PostgreSQL, Prisma, Vue.js, REST APIs

Ilsa Interactive (Lahore)

Backend Engineer | Dec 2024 – Nov 2025

- Designed and delivered production Node.js/NestJS backend systems for a large-scale digital platform, including REST APIs consumed by frontend clients.
- Owned data architecture and API security (JWT/OAuth-style flows, Firebase) plus third-party webhook integrations (e.g. Veriff) with reliable error handling.
- Raised code quality and system reliability through standards, reviews, and production-minded delivery.

Key Technologies: NestJS, Node.js, TypeScript, PostgreSQL, TypeORM, MongoDB (where used), Firebase, REST APIs, Webhooks

NeuroHeap (Lahore)

Backend Engineer | May 2024 – Nov 2024

- Built scalable Node.js/NestJS backend services for subscription-based digital products with strong data integrity on PostgreSQL.
- Implemented event-driven architecture (Kafka) and search/indexing (Elasticsearch) to support high-concurrency production workloads.
- Integrated third-party services and backend infrastructure for web and mobile clients shipping in production.

Key Technologies: NestJS, Node.js, Hapi.js, Kafka, Elasticsearch, Sequelize, PostgreSQL, MongoDB

Devsinc (Lahore)

Software Engineer | Apr 2023 – May 2024

- Delivered production features for enterprise HR/education platforms using Ruby on Rails full-stack patterns (Ruby on Rails, React/MERN, PostgreSQL).
- Built continuous synchronization between interconnected applications to keep data consistent and improve user experience.
- Coordinated frontend–backend delivery so API contracts and UI flows shipped reliably together.

Key Technologies: Ruby on Rails, React, MERN, RSpec, Capybara, PostgreSQL.

Devsinc (Lahore)

Associate Software Engineer | Feb 2022 – Apr 2023

- Optimized production PostgreSQL/query paths on a 100GB+ ERP (payroll & forecasting), reducing processing from hours to minutes.
- Automated policy-change and eligibility workflows, cutting manual ops work and improving compliance consistency.
- Shipped features with unit tests (RSpec) and independently delivered a full blogging application end-to-end.

Key Technologies: Ruby on Rails, PostgreSQL, RSpec, JavaScript.

Education

Bachelor of Science in Software Engineering

Punjab University College of Information Technology, Lahore, Pakistan | 2018 – 2022

Languages

- **English:** Intermediate (Reading, Writing)
- **Urdu:** Native / Expert

Awards & Achievements

- Completed a Professional Communication Skills Program at Devsinc (1 month).
